Atlanta, GA 30339

Subject: Label Amendment – Updating Environmental Hazards statement and removing CA Prop 65 language
Product Name: AMDRO FIRE ANT BAIT YARD TREATMENT
EPA Registration Number: 73342-5
Application Date: April 11, 2018
Decision Number: 540608

Dear Ms. Horton:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Helen Hull-Sanders by phone at 703-347-0243, or via email at hull-sanders.helen@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Elizabeth Fertich". The signature is cursive and somewhat stylized, with the first name being more prominent.

 Fast Acting Bait – Kills the Queen Fast
 Convenient new shaker bag [when packaged accordingly]
 Tear notch at either end to open [when packaged accordingly]
 Resealable bag [when packaged accordingly]

Active Ingredient:	By Weight:
Hydramethylnon:.....	0.036%
(CAS No. 67485-29-4)	
Other Ingredients:	99.964%

KEEP OUT OF REACH OF CHILDREN
CAUTION

See Back/Side/Other Panel(s) for Additional Precautionary Statements

Net Weight: 2 LB (.9 kg) / 5.5 LB (2.5 kg) / 7.5 LB (3.4 kg) / 11 LB (5.0 kg)

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

HOW AMDRO FIRE ANT BAIT YARD TREATMENT WORKS:

1. This product is a bait. Worker ants carry it into the mound as food for the colony.
2. They eat it and feed it to the queen. It starts to kill ants immediately.
3. In about a week the queen is dead, which destroys the mound.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Wash hands with soap and water promptly after use.

Outdoor Use:

For large infested areas: Using this convenient shaker bag, rotary broadcast spreader or hand held granular spreader, broadcast this product at 5 lb. per 5,000 (heavy infestations) to 10,000 (light infestations) sq. ft. (11 lb. per 11,000 to 22,000 sq. ft.; 7.5 lb. per 7,500 to 15,000 sq. ft.; 5.5 lb. per 5,500 to 11,000 sq. ft.; 2.5 lb. per 2,500 to 5,000 sq. ft.) For best results, apply when ants are active (typically when soil temperature is greater than 60°F). Repeat application as needed.

This product controls imported and native fire ants and other ants, such as harvester ants and bigheaded ants. This product is for use ONLY on lawns, landscaped areas, golf courses, commercial grounds, parks and other noncropland areas, as well as on grounds surrounding poultry houses (excluding runs and ranges) or corrals and other animal holding areas. Avoid direct exposure of animals to this product.

Application Tips:

- For best results, apply in early morning or late afternoon when ants are most active.
- Do not apply when ground is soaking wet or when heavy rains are expected. Do not water-in after application. [No need to water-in after application.]

- For convenient application to individual mounds, use AMDRO Fire Ant Bait (insert graphic of AMDRO Fire Ant Bait).

Do not graze or feed treated lawn or sod clippings to livestock.

This product is not for use on vegetable or other food crops, timber or plants grown for sale or other commercial use, or for commercial seed production, or for research purposes.
